How did the Fund perform in the last year?

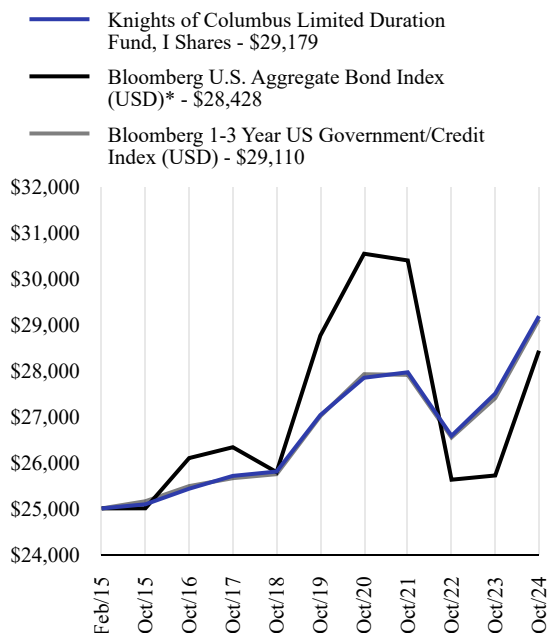

The Bloomberg 1-3 Year US Government/Credit Index (USD) returned +6.25% for the year ended October 31, 2024. All sectors outperformed Treasuries as investors remained constructive on risk asset performance supported by a resilient domestic economy. Corporate credit performed the best due to substantial amounts of spread tightening over the year.

The Knights of Columbus Limited Duration I Shares Fund returned +6.11% for the year, lagging the benchmark. The primary drivers of the portfolio underperformance for the year were a slight underweight to duration as interest rates rallied and securities selected, and an underweight position in the Financial sector. An overweight position and securities selected in the Industrial sector contributed to relative total returns. Returns also benefitted from our ABS exposure, which is not represented in the index.

Our conservative stance towards the Financial sector was a headwind for the Fund's performance over the prior year. The U.S. economy proved stronger than expected with overall activity, as well as labor market conditions, remaining stable despite the restrictive Federal Reserve policy stance. Corporate credit spreads are now at their tightest levels since the late 1990s as the market digests a pivot in central bank policy as well as the upcoming new federal government. We continue to believe that exposure to corporate credits with ample liquidity and selective securitized product with strong collateral remain the more attractive option for investor capital, and we remain focused on generating high-quality carry returns in this environment.

Householding

Rule 30e-1 of the Investment Company Act of 1940 permits funds to transmit only one copy of a proxy statement, annual report or semi-annual report to shareholders (who need not be related) with the same residential, commercial or electronic address, provided that the shareholders have consented in writing and the reports are addressed either to each shareholder individually or to the shareholders as a group. This process is known as “householding” and is designed to reduce the duplicate copies of materials that shareholders receive and to lower printing and mailing costs for funds. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 1-844-KC-FUNDS (1-844-523-8637) to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies 30 days after receiving your request.
